

BILL BOLTON ARENA RENOVATIONS UPDATE - March 23, 2018 -

Bill Bolton Arena is on vacation this summer! We're closed from March 31st to October 1st 2018 for mechanical upgrades.

This means 2018 Spring / Summer programs are cancelled but Fall / Winter programs will continue, with some on a shortened schedule.

Parks, Forestry and Recreation, in cooperation with the Arena Board of Management, are implementing major State of Good Repair renovations. Works will include the replacement of many mechanical components, equipment and piping that are at the end of their life span, and replacement of the refrigerated rink slab.

We have a general construction layout that shows the management of the work in the park. Some parts of the park will have to be sectioned off for staging, deliveries and storage, in addition to providing some off-street parking for construction vehicles, and keeping a safe separation between the construction works and the general public. The work will be organized to minimize impacts on park and street access, wading pool and playground will continue to be available to the public. Trees will be protected while the project is ongoing, surfaces and sod will be restored when we're done.

Thank you for your support and patience during this time!
